

S. P. V. GROUP

Providing services for the maintenance and refurbishment of buildings in the commercial sector, SPV Group has built up an excellent reputation for first class service and delivery.

SPV Group was founded by My Howard Evans in 2001 and is essentially a family run business with all employees being treated as members of an extended family.

Originally founded as a flat roofing company, SPV Group has adapted and diversified with the changing market within which it operates and has responded to Clients needs and now a large aspect of the Companies £ 6,000,000 turnover relates to rain screen, cladding and window installation.

Now incorporating SPV Roofing & Cladding, SPV Road Carpet Ltd, SPV Windows and SPV Plant, SPV Group offers a multitude of disciplines and services.

SPV Group operates a both a nationwide and Europe wide service and in order to keep the workforce mobile and responsive to its customers needs, SPV operates its own extensive fleet of vehicles ranging from Lorries and cherry pickers to vans and cars.

SPV Group has recently completed contracts as far reaching as The Stade de France in Paris, The Q Parks Car Park in Victoria Square Belfast, The Roxburghe Hotel Hotel, Edinburgh and The Holiday Inn Plymouth.

Following their tremendous year on year growth over the last few years, SPV Group moved into new purpose built premises in Aldridge, Walsall at the beginning of 2008.

Encompassing 18,000 square foot of warehouse space and 3,000 square foot of office space the new space has provided the company with the room to grow, develop and expand into new markets.

The Company's continued growth and success is attributed to the first class service which is provided to their Clients. SPV Group endeavours to offer unparalleled service to Clients at all times and also aims to develop excellent working relationships.

With Clients such as Odeon Cinemas and The Rank Group Gaming Division, it is important that Directors can be contacted at all times. If a building has a very severe roof leak this may lead to the closing of a Cinema Screen or a part of a Casino which could result in a significant loss of revenue. Our Clients know that they can call us anytime and we will ensure that their problem is dealt with

efficiently and effectively.

SPV Group works closely with all Clients to ensure that contracts are carried out within the agreed timescales, budgets and specification and aims to accommodate their Clients requirements at all times. When carrying out the installation of road carpet surfacing material at The Stade de France in Paris, only small parts of the ramp were closed off when carrying out the works ensuring that the busy access way remained in operation at all times throughout the contract.

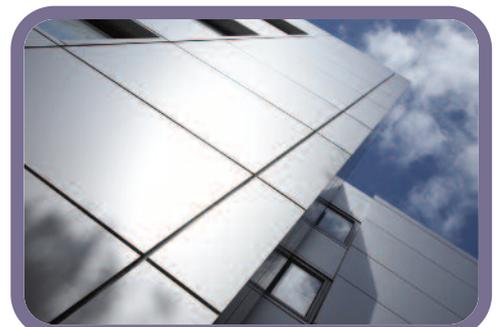

Similarly when carrying out the roofing works at The Menzies Carlton Hotel, Bournemouth, the specification was changed to a single ply roofing felt at the Clients request following a fire causing extensive damage to a nearby Hotel weeks before the contract was due to commence.

The underlying culture and ethos of SPV Group is that of communication, trust and co-operation. This applies to both the internal workings of the Company and is also incorporated into all contracts no matter how large or small.

When carrying out the extensive works at The Holiday Inn Cardiff whilst the Hotel remained in operation, through the communication built up between the SPV staff and Hotel staff, the contract ran smoothly from start to finish with only one room being lost throughout the 12 month contract, an accolade that the company is extremely proud of. Similarly, the exterior refurbishment works at The Crowne Plaza Manchester were carried out with little disruption to the Hotel which remained in operation throughout.

Similarly, during the re-roofing of the Robert Bosch Plant in Cardiff the plant remained in operation throughout the 10 month contract and the works were completed within both the agreed timescale and the agreed budget.

Other recent contracts completed by SPV Group include the exterior refurbishment of Odeon Cinemas in Camden, Glasgow Quay, Derby and Tamworth involving the installation of now steelwork, cladding and glazing to create a front entrance canopy, the overlaying of all roofs at The Park Inn Hotel Telford with a high performance built up felt roofing system to provide a 20 Year guarantee, the installation of road carpet surfacing material at various Q Parks car parks throughout the country and window replacement works at The Holiday Inn Hotel, Milton Keynes and The Holiday Inn York.

SPV Group have achieved a number of industry accreditations including CHAS accreditation, Constructionline certification, Safe Contractor approval and are also members of The British Safety Council and Flat Roofing Alliance. Large contracts are also carried out in accordance with the Safe Contractor Scheme.
